***About CFD Society of Canada***

The CFD Society of Canada (CFDSC) was established as a non-profit organization in September 1992. Its mission is to promote the science, development and application of Computational Fluid Dynamics (CFD) in Canada and to provide a framework for communication and collaboration between researchers, developers and practitioners in this field from industry, government and academia.

Since its creation the CFDSC organizes an Annual Conference at a varying location throughout Canada. The annual conferences draw together CFD researchers and practitioners, covering recent advances and challenges in a broad spectrum of application areas. Conference papers are selected by peer review of submitted abstracts and are published in electronic proceedings.

The CFDSC administers several awards. The Lifetime Achievement Award, established in 2005, recognizes individuals who have made outstanding and time-enduring contributions to CFD in Canada. Two Student Paper Awards are given at each CFDSC conference. The CFDSC Graduate Scholarship Awards and Travel Grants support students from Canadian universities to pursue research studies in CFD and to participate in the CFDSC annual conferences.

***CFDSC Corporate Membership***

After a recent revision of its Society Bylaws and recognizing the importance of engaging corporate stakeholders to fulfill its mission, the CFDSC has created the membership category of *Corporate Member*. Whereas in previous years the CFDSC sought sponsors for its Annual Conference, as of 2016 corporations are invited to become Corporate Members of the CFDSC. The new arrangement benefits Corporate Members in two ways. First, Corporate Members enjoy exposure and recognition for their contribution to CFDSC throughout the year. Second, Corporate Members have a voice and vote at the CFDSC Annual General Meeting along with all Members of the Society. Several levels of Corporate Membership, each with a corresponding set of benefits, are available as detailed on the next page.

***25<sup>th</sup> Annual Conference of the CFD Society of Canada***

In 2017 the 25<sup>th</sup> CFDSC Annual Conference will be held from June 18 to 21 in Canada's southernmost city, Windsor, ON. The CFDSC conference always welcomes international attendance and with Windsor being literally at the crossroads between Canada and the United States of America, the 2017 CFDSC conference will offer the ideal venue to attract CFD experts from across the border as well.

## Corporate Membership Levels and Benefits

The CFDSC offers several levels of Corporate Membership with different benefits packages allowing you to select the visibility and recognition in the CFD community that is best suited to the interests and level of commitment of your company. Corporate Membership can be started/renewed at any date during the year and remains valid for one full year from that date.
